

Tools are a big part of our lives. We have tools for preparing and eating food, communicating with each other, and monitoring our health, to mention only a few. God also gave us tools for knowing His will and doing it.

Prayer is a tool. God speaks with each of us through prayer. It is the listening and talking part of our personal relationship with God. Isn't it amazing that we can communicate directly with the greatest power in the universe, God?

The Bible is a tool through which we hear God speak to us. Our name is often attached to the words we read.

Holy Communion, not often thought of as a tool of God, is an event when we are infused with Jesus Christ. Sound mysterious? It is. Difficult to explain? It is. Some tools work very well, even though we don't understand and can't explain them.
